iCRAVER — CATCH THE FUTURE

realwear

Your Future Collaboration Is Here

"Voice Control Fully Rugged Headset"

WHY YOU SHOULD CHOOSE REALWEAR ?

01 Visual Assist

That equipped with a high definition camera that can be used to **capture photos and videos** in **hard to reach places** like tunnels, towers, or behind large machinery and equipment. **"My camera. Take photo."**

(Visual Assist)

02 Hands-Free Data Visualization

Industrial IoT solutions with RealWear HMT-1™ provide operators the **real time data** they need **when operating, inspecting, or maintaining data equipment.**

(Data Visualization)

03 Digital Workflow

Provide visual instructions, checklists, data entry, and visual documentation of completed steps while on the go. HMT-1™ enables digital workflow to reach workers when and where they need it **improving productivity and reducing operational errors.**

04 Remote Mentor

Reduce downtown and travel costs hands-free, collaboration and telepresence for first line workers on the RealWear HMT-1™. Equipped with a **High Definition Camera, Powerful Audio and Unmatched Noise Cancellation** capabilities, enabling workers in the field to get assistance from experienced technicians "mentors" via an enhanced **two-ways video call experience** where the expert can remotely see and hear from the worker's point of view.

Cisco Webex Expert on Demand

Microsoft Teams on RealWear

05 Document Navigator

Viewing documents on the HMT-1™ enables your workforce to view technical manuals and any other documents without needing to hold them in your hands. Using reference documents with eyes forward and hands free **improves productivity and safety.**
